Computer and Network Use: Rights and Responsibilities

BP 3250 3720

<u>The</u> Foothill - De Anza Community College District ("District") owns, <u>leases</u>, and<u>/or</u> operates a variety of computer and communication systems, including <u>but not limited to</u>, voicemail, electronic mail (e-mail), telephone, <u>cloud-based applications</u>, and access to the Internet, which are provided for the use of District faculty, administrators, staff, and students in support of the programs of the Colleges and District. Hereinafter, this system and all its component parts shall be referred to as the "District Network." This network establishes a communications platform that often substitutes for in-person meetings regarding District business.

Employees, students, or other individuals who use District computers and networks, including the information they contain and related resources, have a responsibility not to abuse those resources and to respect the rights of others. The Chancellor shall establish procedures that provide guidelines for the appropriate use of the District Network, computing equipment, and information technologies. The procedures shall include that users must respect software copyrights and licenses, respect the integrity of computer-based information resources, refrain from seeking to gain unauthorized access, and respect the rights of other computer users.

The Computer and Network Use: Rights and Responsibilities Policy ("the Policy") applies to all members of the District community using the District Network including faculty, administrators, staff, students, independent contractors, and authorized guests. The Policy covers use of computer equipment and communication systems at any District facility in computer labs, classrooms, offices, libraries and the use of the District servers and networks from any location. If any provision of this policy is found to be legally invalid it shall not affect other provisions of the policy as long as they can be effective without the invalid provision.

Ownership Rights

The Policy is based upon and shall be interpreted according to the following fundamental principle: the entire District Network, and all hardware and software components within it, is the sole property of the District which sets the terms and conditions of its use consistent with the law. Except as provided in Board Policy or collective bargaining agreements pertaining to intellectual property rights, employees and students have no rights of ownership to these systems or to the information they contain by virtue of their use of all or any portion of the District Network.

Privacy Interests

The District recognizes the privacy interests of faculty and staff and their rights to freedom of speech, participatory governance and academic freedom as well as their rights to engage in protected union and concerted activity. However, both the nature of electronic communication and the public character of District business make electronic communication less private than many users anticipate. In the District Network can be subject to authorized and unauthorized access by both internal and external users. For these reasons, there are virtually no online activities or services that guarantee an absolute right of privacy, and therefore the District Network is not to be relied upon as confidential or private. Nonetheless,

the District seeks to afford email communications privacy protections comparable to those it traditionally affords paper mail and telephone communications.

District Rights

System administrators may access user files or suspend services they manage without notice: 1) to protect the integrity of computer systems; 2) under time dependent, critical operational circumstances; 3) as required by and consistent with the law; or 4) when it reasonable to believe that violations of law or District policy or procedures have occurred. For example, system administrators, following organizational guidelines, may access or examine individual files or accounts based on suspicion that they have been corrupted or damaged or subject to unauthorized use or misuse. In such cases of access without notice, data or information acquired may be used to initiate or extend an investigation related to the initial cause or as required by law or Board policy. Such data or information may also be used as grounds for appropriate personnel action.

User Rights

While the District monitors electronic usage as part of its normal network operating procedures, the District does not routinely inspect or monitor users' computer hardware or files, email, and/or telephone message system, nor disclose information created or stored in such media without the user's consent. The District shall attempt to notify users before accessing computer hardware and files or prior to suspending service. In the event that the District acts without user consent, under its District Rights specified above, the District shall do so with the least perusal of contents and the least action necessary to resolve the immediate situation. When the District accesses files without user consent, it shall notify the user as soon as possible of its access and provide the reason for its action.

User Responsibilities

The Board recognizes that computers and networks can provide access to resources on and off campus, as well as the ability to communicate with other users worldwide. Such open access is a privilege and requires that individual users act responsibly. Users must respect the rights of other users, respect the integrity of the systems and related physical resources and observe all relevant law, regulations and contractual obligations.

For District employees, the intended uses of the District Network are those which are reasonable and necessary for the pursuit of job duties; for students, the intended uses are those which are reasonable and necessary for the pursuit of instructional activities. Although personal use is not an intended use, the District recognizes that the Network will be used for incidental personal activities provided that such use is within reason and provided that such usage is ordinarily on an employee's own time, is occasional, and does not interfere with or burden the District's operation.

"Unauthorized uses" include prohibited uses and any other use for a prohibited purpose, including illegal activities, messages which may constitute discrimination or harassment under state or federal law, or anything that interferes with the intended use. These types of prohibited uses and purposes are further defined in Administrative Procedure 3250.

All users of the District Network must read, understand, and comply with this Policy as well as Administrative Procedures 3250, and any additional guidelines established by the District. Such guidelines will be reviewed by the District and may become subject to Board approval as a District policy or procedure. By using any part of the District Network, users agree that they will comply with this Policy.

Copies of this Policy can be found in the policies section of the College Catalogues, Schedule of Classes, Student Handbooks, Faculty Handbooks, New Classified Employee Handbook, and the Handbook for New Administrators. Copies of this Policy are also available in the District Human Resources Office, the Office of the Dean of Student Development and EOPS (De Anza), the Office of the Dean of Student Affairs and Activities (Foothill), and on the District's Web site at http://www.fhda.edu.

Enforcement of the Policy

The Board directs the Chancellor or designee to enforce all existing federal and state laws and District and college policies, including not only those laws and regulations that are specific to computers and networks but also those that apply generally to personal conduct. Violations of this Policy will be dealt with in the same manner as violations of other District policies or standards of behavior and may result in disciplinary action, subject to applicable due process requirements.

Users who believe this policy has been misinterpreted or misapplied may file a complaint in accordance with the Complaint Procedures found in Administrative Procedures 3250.

Students who do not observe the requirements of this Policy may be in violation of the Student Code of Conduct and subject to student discipline. <u>Employees who do not observe the requirements of this Policy may be subject to disciplinary action up to and including termination.</u>

This Policy and Administrative Procedure 3520 3720 shall be distributed to all new and existing employees. Nothing in this policy should be construed to interfere with First Amendment rights or with the academic freedom of faculty as outlined in Board Policy 4190.

Procedures Regarding Misuse of Computer Information Computer and Network Use

AP 3250 3720

This administrative procedure implements Board Policy 3250 3720.

The Computer and Network Use Policy ("the Policy") applies to all members of the District community using the District Network including faculty, administrators, staff, students, independent contractors, and authorized guests. The Procedure covers the use of computer equipment and communication systems at any District facility in computer labs, classrooms, offices, and libraries, and the use of District equipment, servers, systems, and networks from any location. If any provision of this Procedure is found to be legally invalid, it shall not affect other provisions of the Procedure as long as they can be effective without the invalid provision.

Ownership Rights

The Procedure is based upon and shall be interpreted according to the following fundamental principle: the entire District Network, and all hardware and software components within it, is the sole property of the District which sets the terms and conditions of its use consistent with the law. Except as provided in Board Policies, Administrative Procedures, and collective bargaining agreements pertaining to intellectual property rights, network users have no rights of ownership to these systems or to the information they contain by virtue of their use of all or any portion of the District Network.

Privacy Interests

The District recognizes the privacy interests of faculty and staff and their rights to freedom of speech, participatory governance, and academic freedom, as well as their rights to engage in protected union and concerted activity. However, both the nature of electronic communication and the public character of the District's business make electronic communication less private than many users anticipate and may be subject to public disclosure. In addition, the District Network can be subject to authorized and unauthorized access by both internal and external users. For these reasons, there are no online activities or services that guarantee an absolute right of privacy, and therefore, the District Network is not to be relied upon as confidential or private. Nonetheless, the District seeks to afford email communications privacy protections comparable to those it traditionally affords paper mail and telephone communications consistent with state and federal laws.

District Rights

System administrators may access user files or suspend services they manage without notice: 1) to protect the integrity of computer systems; 2) under time-dependent, critical operational circumstances; 3) as required by and consistent with the law; or 4) when it is reasonable to believe that violations of law or District policy or Administrative Procedures have occurred. For example, system administrators, following District guidelines, may access or examine individual files or accounts based on suspicion that they have been corrupted or damaged or subject to unauthorized use or misuse. In such cases of access without notice, data or information acquired may be used to initiate or extend an investigation related to the initial cause or as required by law or Board Policy or Administrative Procedure and/or to protect system integrity. Such data or information may also be used as grounds for appropriate disciplinary action.

Access to the District enterprise resource planning ("ERP") system or other District applications or databases containing personally identifiable information ("PII") or protected health information ("PHI"), or any other student or employee information protected by state or federal law, shall be granted upon the successful completion of the Department of Justice ("DOJ") Live Scan fingerprint check.

To ensure an effective response to emergency situations, the District may monitor telephone calls only when an emergency call is made to 911. This emergency call monitoring allows District Police to communicate and coordinate with Police, Fire, and other emergency responders.

User Rights

While the District uses automated processes to monitor electronic usage as part of its normal network operating procedures, the District does not routinely inspect or monitor individual users' computer hardware or files, email, and/or telephone messages, nor disclose information created or stored in such media without the user's consent unless required by law. The District shall attempt to notify users before accessing computer hardware and files or prior to suspending service. If the District acts without user consent, under its District Rights specified above, the District shall do so with the least perusal of contents and the least action necessary to resolve the immediate situation. When the District accesses files without user consent, it shall notify the user as soon as possible of its access and provide the reason for its action.

User Responsibilities

The District recognizes that computers and networks can provide access to resources on and off campus, as well as the ability to communicate with other users worldwide. Open access is a privilege and requires that individual users act responsibly. Users must respect the rights of other users, respect the integrity of the systems and related physical resources, and observe all relevant laws, regulations, policies, procedures, and contractual obligations.

For District employees, the intended uses of the District Network are those which are reasonable and necessary for the pursuit of job duties; for students, the intended uses are those which are reasonable and necessary for the pursuit of instructional or other authorized activities.

"Unauthorized uses" include prohibited uses and any other use for a prohibited purpose, including illegal activities, messages which may constitute discrimination or harassment under state or federal law, or anything that interferes with the intended use.

No Personally Identifiable Information (PII) unrelated to district matters should be stored or transmitted using the District Network. Users are prohibited from receiving, transmitting, or storing student or employee information categorized as PII outside District systems specifically designated for secure storage and transmittal of PII.

Users accessing the District Network are expected to act responsibly and engage in safe computing practices. To protect the integrity of the District Network and the information it contains, all employees are provided with regular cybersecurity training modules and should utilize effective cybersecurity practices.

International Travel

When traveling outside the United States, employees will be restricted from accessing certain sensitive data systems and/or connecting to the District Network via Virtual Private Network (VPN) connections. These limitations are intended for security purposes and the District will make an effort to allow international access to instructional systems to the greatest extent feasible given security, data protection, and risk considerations. Additionally, when engaging in authorized international travel, employees shall ensure District-owned computing hardware and any storage devices containing District data are encrypted per current District standards.

All District Network users must read, understand, and comply with this Administrative Procedure, Board Policy 3720, and any additional guidelines established by the District. Such guidelines will be reviewed by the District and may become subject to Board approval as a District policy or procedure. By using any part of the District Network, users agree that they will comply with this Procedure.

Copies of this Policy can be found in the policies section of the College Catalogs, Schedule of Classes, Student Handbooks, Faculty Handbooks, New Classified Employee Handbook, and the Handbook for New Administrators. Copies of this Policy are also available in the District Human Resources Office, the Office of the Dean of Student Development and EOPS (De Anza), the Office of the Dean of Student Affairs and Activities (Foothill), and on the District's web site at http://www.fhda.edu.

Enforcement of the Procedure

The Chancellor or designee will enforce all existing federal and state laws and Board Policies and Administrative Procedures, including not only those laws and regulations that are specific to computers and networks but also those that apply generally to personal conduct. Users violating Board Policy 3720 and this Administrative Procedure will be dealt with in the same manner as violations of other Board Policies or Administrative Procedures or standards of behavior.

<u>Users who believe this policy has been misinterpreted or misapplied may file a complaint in accordance with the Complaints procedures found below.</u>

Students who do not observe the requirements of this Procedure may be in violation of the Student Code of Conduct and subject to student discipline. Employees who do not observe the requirements of this Procedure may be subject to disciplinary action up to and including termination. Such violations may also be subject to criminal investigation when warranted.

The District is responsible for making this Procedure readily accessible to all users prior to their use of the District Network. Abuse of computing, networking or information resources contained in or part of the District Network may result in the loss of computing privileges access to the District Network. Additionally, abuse can be prosecuted under applicable statutes laws. Users may be held accountable for their conduct under any applicable Board, District or College policies, Administrative Procedures, state and federal laws, or collective bargaining agreements. Complaints alleging abuse of the District Network will be directed to those responsible for taking appropriate disciplinary action. The following guidelines apply to the District colleges' preparation of the comprehensive Self Evaluation of Educational Quality and Institutional Effectiveness Report (Self Evaluation Report) for reaffirmation of accreditation.

Under processes established by ACCJC, the colleges undergo a cycle of periodic evaluation through institutional self-evaluation and external peer review. ACCJC sets a seven-year cycle for evaluation and reaffirmation of accreditation. The review process includes four steps:

Board Policy 7400 states that District employees are reimbursed for **authorized** expenses incurred while away on **traveling on official** district business.

The purpose of this administrative procedure is to set forth guidelines for authorizing travel and to highlight allowable travel expenses, define allowable travel and mileage expenses for overnight trips for reimbursement. Travel expenses must have an official District business purpose to ensure these travel and mileage reimbursements are not classed as a fringe benefit and are excludable from taxable income. Under Internal Revenue Code (IRC) Section 61, all income is taxable unless an exclusion applies. These procedures apply only to District employees and trustees and do not pertain to students, temporary/hourly employees, or independent contractors.

For guidance on processing authorized travel reimbursement claims outlined in this procedure and information on the required supporting documentation, please see the Accounts Payable website under Travel Requirements here: https://business.fhda.edu/policies-and-procedures/ff-travel-policy.html (NOTE: THIS LINK WILL BE MADE ACTIVE AFTER THE AP RECEIVES FINAL APPROVAL)

Travel Authorization

The following guidelines will be used by the Chancellor in authorizing travel:

- 1. The number of staff members to be away from a campus or Central Services at any one time shall be controlled so that no department will be depleted below effectiveness.
- 2. The duties of a staff member while away will be normally covered by other staff members when necessary.
- 3. The opportunity to attend conventions, **conferences** and professional meetings will be distributed as broadly as possible.
- 4. The Chancellor delegates to an employee's immediate supervising manager the authority to approve all requests for domestic travel. Approval must be secured before travel arrangements are made. Staff members employed within the Office of International Students and the campus abroad programs who are performing their regularly assigned duties requiring international travel are not required to obtain the Chancellor's advance approval of such travel. In all other cases, international travel must be approved in advance by the Chancellor.
- 5. Travel authorization will generally be limited for one of the following purposes:
 - a. Transact business of the District, such as consideration of items for procurement, contact with community and governmental groups and agencies, business/financial contractual negotiations and travel between properties owned

- or used by the District.
- b. Attend educational and professional meetings, such as subject matter meetings, educational conventions, professional organization conferences, and committee meetings.
- c. Attend meetings related to legislative matters important to the District, such as legislative hearings and sessions, and committee and other meetings of professional organizations working on legislation.
- d. Travel with student groups and for student activities, such as all travel with teams, clubs, and student government groups, travel to chaperone student activities, travel to arrange for all such student activities, travel on field trips, and travel to recruit students.
- 6. The Board of Trustees prohibits the use of all District funds, regardless of source, to sponsor or support employee travel to states determined by the California Attorney General under AB 1887 to be restricted for use of state funds. Expenses incurred for travel to states identified on the California Attorney General's website https://oag.ca.gov/ab1887 as having enacted discriminatory laws shall not be reimbursed unless the Chancellor has determined in advance that adherence to the travel ban would be seriously detrimental to district/college operations and has authorized travel.

Travel Reimbursement

It is the intent of the Board of Trustees that no employee suffer incur financial loss or produce personal gain as a result of being on district business. It is further intended by the Board that when an employee is away travels on district business, a reasonable and conventional standard of living be sustained. comparable to what are normally maintained under conventional living conditions. The District recognizes that travel paid for with public funds is of interest to the taxpayer, and therefore these guidelines reflect a concerted effort to ensure allowed costs are reasonable and not excessive, lavish or extravagant.

In order to comply with IRS guidelines that exclude travel reimbursements from taxable income, claims for reimbursement must be submitted within a reasonable time. Employees must submit claims for reimbursement within ninety (90) calendar days following the date of return from travel for official District business. Travel reimbursement claims for expenses incurred in the last quarter of the fiscal year (April through June) are due no later than July 15 of the following fiscal year. Claims submitted after July 15 for expenses incurred in the prior fiscal year will not be reimbursed.

The Board of Trustees prohibits the use of district funds to sponsor or support employee travel to states determined by the California Attorney General to have implemented laws that authorize or allow discrimination on the basis of sexual orientation, gender identity, gender expression, same-sex relationships, or same-sex marriage. Expenses incurred for travel to states identified on the California Attorney General's website https://oag.ca.gov/ab1887 as having enacted discriminatory laws shall not be reimbursed unless the Chancellor has determined in advance that adherence to the travel ban would be seriously detrimental to district/college operations and has authorized travel.

Expenses of a personal nature are not reimbursable.

General Travel Guidelines and Allowable Expenditures:

Below are examples of general travel guidelines and allowable travel expenditures; however, these examples are not intended to be all-inclusive nor fully refined. Except when claiming meal per diem, all original receipts that are provided by the vendor must accompany a claim for reimbursement. Limitations exist on reimbursement of meals; see per diem below.

Expenses incurred by a companion while traveling with an employee are not recoverable. Furthermore, any premium induced because of the travel companion (e.g. additional room charges) will be borne by the employee.

Hotel Accommodations:

While traveling on district business, employees are encouraged to stay at good-standard (e.g. major hotel chains), clean, and safe hotels selecting non-premium accommodations. Premium accommodations should be avoided unless no other suitable-arrangements are available or special extraordinary and preapproved circumstances justify their use. Hotel arrangements should only be sought when staying overnight and when traveling the hotel is outside a 75-mile radius from the District, unless there are extenuating factors such as traveling through extremely busy commuter traffic areas or on multiple days. See the Accounts Payable website under Travel Policy/Procedures for further guidance.

Only room charges, necessary room taxes and fees, and mandatory parking are reimbursable. Room service, laundry service, entertainment, recreational activities, or upgraded options such as valet parking are not allowed.

Air Transportation:

The standard for domestic air travel is coach class and for international travel is business class. The baseline for air travel is the standard coach/economy rate that would allow for a checked suitcase without seating upgrades or early check-ins that are considered premium. Reservations should be made early to obtain the lowest rates. Employees should ensure plans are confirmed prior to purchasing tickets with flight restrictions or no refund clauses.

Car Rental:

The standard car rental is a compact automobile; however, a larger a car can be used—requested if more than two employees share a single automobile. Generally, rental agencies provide insurance coverage at a premium. The District recommends electing such coverage.

Generally, rental agencies provide insurance coverage at a premium. The District recommends you elect such coverage. If you use certain credit cards (i.e., "gold cards") for payment, collision coverage is sometimes provided for under their policy. Before declining the insurance coverage, verify that the credit card does indeed provide such advantages.

Personal Automobile Transportation:

When an employee elects to use a personal automobile for out-of-district transportation, the employee will be reimbursed at the current IRS statutory limit for the first 300 miles. to their business destination. Beyond that mileage, the employee will be reimbursed at the "economy" airfare to/from that location. Mileage reimbursement will be from an employee's regular reporting worksite or from their residence to the destination depending on, which point of departure results in fewer miles. For long distance travel, an employee may opt to drive a personal vehicle and be reimbursed for the actual roundtrip mileage or the baseline two-week advance roundtrip airfare plus the cost of ground transportation to the destination, whichever results in a lower cost to the District.

Business Travel Accompanied by a Spouse:

Expenses incurred by a spouse while traveling with an employee are not recoverable. Furthermore, any premium induced as a result of the spouse (i.e., additional room charge) will be borne by the employee.

Telephone Calls:

All business related calls are reimbursable. A reasonable amount (one or two per day) of personal calls are also reimbursable.

Receipts:

Except when claiming per diem, all "original" receipts must accompany a claim for reimbursement. In certain instances, (i.e., toll, taxi, etc.) receipts are not furnished. In these situations, the reimbursement request must clearly explain the nature of the charge and why a receipt was not provided. Limitations exist on meals, see per diem below. Claims for reimbursement are to be submitted within 90 calendar days following the trip, but no later than July 15 following the end of the fiscal year. Claims from a prior fiscal year will not be paid.

Meals Per Diem:

The meal per-diem, periodically adjusted for inflation, is \$55.00 for domestic travel and \$80.00 for international travel as follows:

| US Domestic Travel | | International Travel | |
|--------------------|---------|----------------------|---------|
| Breakfast | \$10.00 | Breakfast | \$15.00 |
| Lunch | \$15.00 | Lunch | \$25.00 |
| Dinner | \$30.00 | Dinner | \$40.00 |
| Total | \$55.00 | Total | \$80.00 |

Unless specifically authorized by the Chancellor or College Presidents, meal amounts exceeding the per-diem limit will not be reimbursed. Moreover, if a conference registration includes meals as part of the fee, then per-diem for that meal may not be additionally claimed.

Meals eligible for per diem claims include breakfast, if departure from the employee's residence is before 7:00 a.m., lunch, and dinner, if return to the employee's residence is after 6:00 p.m. Per diem may not be claimed for any meal included as part of a conference registration fee.

The daily meal per diem rates are based on the U.S. General Services Administration (GSA) per diem rates, which vary depending on travel location. The rates are all-inclusive and assume taxes and tips, so separate claims for those items are not allowable.

The per diem rates are periodically reviewed and updated in accordance with rates set by the GSA. The current perdiem rates for domestic travel and international travel are posted on the Accounts Payable website under Travel Policy/Procedures. (NOTE: THE RATES WILL BE UPDATED PER THE NEW GUIDELINES AFTER THE AP RECEIVES FINAL APPROVAL)
